

Tropic Seafood

The Bahamas' Leading Producer of Quality Assured Lobster Tails

Moving Toward the Future and Leading by Example.

As a proven leader in the industry, we lead the way by setting an example of best practices and new innovative ways to do business.

Serving globally, we deliver many premium seafood products and support sales of Whole Live Spiny Lobsters into international markets including Asia.

Our on-site facilities position our company to explore into land-based aquaculture programs to grow highly prized species of fish. These species are well suited for growth in the Bahamian climate and water temperatures. Each of our aquaculture species can be shipped live, fresh or frozen, whole or filleted into markets throughout North America.

- AA Rating BRC Plant Certification
- Shippers of Whole Live Spiny Lobsters into Asia
- Aquaculture on-site capabilities with exploration of Nassau Grouper, Japanese Flounder and Mediterranean Sea Bass

For product information and Aquaculture opportunities please call (242) 361-3000.
